

HOW DOES SHARED *Activities* WORK?

KINDLY NOTE: While we typically use 10-seater vehicles for game drives, this may vary as these activities are shared. Vehicle allocation depends on the operational requirements of each drive. If you'd like to ensure your group stays together, we recommend booking a private drive. For larger groups of up to 20, we also offer the option of using a truck.

For example, if you're a group of 7, we will do our best to keep you on the same vehicle. However, if that's not possible, your group may be split into smaller groups of 3 and 4, or you could opt to stay together on a truck with 13 other guests. Another option is booking a private drive for your own vehicle.

Our dedicated staff is committed to creating an enjoyable bushveld experience for every family, while also balancing operational needs. We kindly ask for your understanding and cooperation, as ensuring a high-quality experience for all is our top priority.
